

PE1, PE2 Premier Elite 1 or 2 Zone Fire Alarm Panel

The Premier Elite 1 & 2 zones panels are the ideal entry-level panel for small premises that require a fire alarm system. Their low cost and simple installation will make them favourites for years to come.

Calling on our years of experience in fire alarm design, we have developed the Premier Elite system to give everything that is required from a small panel, whilst maintaining a competitive price.

For larger systems, 4 zone, 6 zone and 8 zone versions are also available.
