

Cig-Arrête® Master Smoke Detector with Voice Alarm (Part No CSA-GDV)

Problems with illicit smoking?

Product Overview

Recent legislation has now placed the onus firmly on businesses to enforce a strict no-smoking policy and the patented Cig-Arrête® anti-smoking alarm is a simple and highly effective deterrent that clearly displays your commitment to legislative compliance.

The unique Cig-Arrête® detector will automatically sound a pre-recorded warning whenever cigarette smoke is detected, thereby helping to prevent illicit smoking on your premises and providing a visual and audible re-enforcement of your commitment to creating a smoke-free environment.

In addition, the CSA-GDV can be used as a Master Unit to connect to other Cig-Arrête products, such as other smoke or flame slave detectors, power supply units, and Combined Sounder Beacons, or other external equipment.

Product Benefits

- Helping you to comply with legislation
- Visual deterrent
