ELEGANCE, AND FIRE DEFENCE

Not a common association, but we have never believed the two should be mutually exclusive...
Introducing the new Contempo range from Commander®.

SOMETHING NEW

Forget those ugly red cans hung on the wall, or worse still – on big ugly red pastic stands. This is something new. This combines fire safety with the most exquisite hand-finished architectural finishes. This means you don't have to spoil your carefully-crafted interior design with mandatory fire equipment. This is Contempo by Commander®

CONTEMPO – POLISHED GOLD

Synonymous with the ultimate in luxury, polished gold extinguishers don't just blend into their surroundings – they look part of it. Whether you are fitting out a stately home, palace or a castle, these extinguishers are a perfect solution. Not to be confused with some retro-fit wrap on a standard extinguisher, these are electro plated to give a stunning mirror finish. And with the matching polished gold tubular stands and ID signs, this range is truly Elegance in Fire Defence.
