

Agrippa DeafAlert

Home pillow alarm for the deaf and hard of hearing

AGRIPPA

The Agrippa DeafAlert uses 'listening' technology to wake adults and children who are deaf or hard of hearing if the supplied smoke detector sounds while they are sleeping. Upon hearing the smoke detector the Agrippa DeafAlert lights up and vibrates the pad under the user's pillow.

Features

- Activates if smoke detector sounds
- Vibrating pillow pad with different vibrations for fire warning and alarm clock
- Flashing red LED light with visual 'fire' warning
- Time display with alarm clock function
- Easy to install and set up
- Signal strength indicator
- Smoke detector supplied
- Mains powered with AA back-up batteries
- Battery health check option
- Visual warning of low battery
- Video and large print instructions

Technical specification

- Mains powered (includes 4 x AA back-up batteries)
- L: 120mm x W: 120mm x D: 90mm
- Weight 380g (pillow alarm)
- Wire-free smoke detector supplied
