

Stainless Steel Cable Ties

Our range of stainless steel cable ties are manufactured from 304 stainless steel and have a high tensile strength. They are flame retardant, tough and corrosion resistant and can be easily fitted using one of our stainless steel tensioning tools.

Specifications:

- * Resist extreme temperature: -80°C to +538°C
- * Flame retardant
- * High tensile strength
- * Fast, secure installation
- * Safe to handle
- * Stainless steel 304
- * BS7671 Compliant
