## **Discount Fire Supplies Reduce The Price Of Their Domestic LED Carbon Monoxide Alarm By Nearly 40% For September 2013 Only**

***In the latest in a series of monthly special offers, discountfiresupplies.co.uk have reduced the price of their Domestic LED Carbon Monoxide Alarm to £15.60 for the entirety of September, creating a saving for customers of nearly 40%.***

Discount Fire Supplies are online retailers of fire alarm systems, emergency lighting and first aid and safety equipment and are committed to providing a wide range of products at competitive prices. In light of this they are now offering the [Zeta Domestic LED Carbon Monoxide Alarm](#) at the reduced price of £15.60 until the end of September 2013, saving customers nearly 40% on the original price.

Carbon monoxide (CO), sometimes referred to as the “silent killer”, is a colourless, odourless and tasteless gas. It is produced when fuels such as gas, oil, coal and wood do not burn fully and the most common causes of carbon monoxide are malfunctioning, poorly installed or poorly maintained household appliances such as cookers, heaters and central heating boilers.

When you breathe in carbon monoxide the gas enters your blood stream and mixes with the haemoglobin, preventing your red blood cells from carrying oxygen around the body. This lack of oxygen causes your body tissues and cells to die. This is known as carbon monoxide poisoning.

With carbon monoxide poisoning being responsible for the death of over 50 people a year in the UK alone and leaving more than 200 people seriously ill it is important that every area at risk of increased levels of carbon monoxide is protected by a carbon monoxide alarm.

To help their customers stay safe against carbon monoxide poisoning Discount Fire Supplies are offering the Zeta Domestic LED Carbon Monoxide Alarm at the reduced price of £15.60 until the end of September 2013.

The Zeta Domestic LED Carbon Monoxide Alarm provides an early warning of carbon monoxide by providing an audible and visual alert. The alarm is BSI approved and, with its portable design and easy installation, is ideal for use at home or even on holiday. The Zeta Domestic LED Carbon Monoxide Alarm comes as a sealed tamper proof unit with a built-in battery lasting up to 7 years in normal operating conditions and has an LED display to indicate the presence of power, fault and alarm.

For more information about carbon monoxide and the Zeta Domestic Carbon Monoxide Alarm please read Discount Fire Supplies' latest blog post: [The Dangers of Carbon Monoxide](#).
