Gent Xenex Conventional Fire Alarm System Now Available On discountfiresupplies.co.uk

Gent by Honeywell's Xenex conventional fire alarm system is the latest addition to the range of fire alarm systems available on the Discount Fire Supplies website. A large stock-holding is now in place and the system is available for immediate purchase.

Discountfiresupplies.co.uk is now stocking the [Gent Xenex fire alarm panel](#) in 2, 4 and 8 zone options. Along with the fire alarm panel, which notably has a standby time of up to 72 hours in the event of mains power failure, many [Gent conventional fire alarm system components](#) are also available.

Gent by Honeywell is a popular manufacturer within the fire detection equipment industry, with many years of fire safety innovation behind them. Acquired by Honeywell in 2005, their brand has gone from strength to strength under the wing of the energy, safety and security giant.

Selected by Discount Fire Supplies for its many benefits, including easy installation and cost-efficiency, the [Xenex conventional fire alarm system](#) has been designed with smaller applications in mind, where up to 8 fire zones might be required.

"Gent is one of the world leaders in fire detection who have an incredibly strong brand therefore it is essential that we include their product portfolio in our offering to help us become the quintessential fire safety supplier."

Customers selecting the Gent Xenex [fire alarm system](#) for their premises will not only benefit from reliable fire detection. In addition, they will also find ongoing maintenance of the system to be straightforward whereby the entire setup can be tested by just one operative.

Discount Fire Supplies spokesperson Tariq El-Hoss says of the new addition, "Gent is one of the world leaders in fire detection who have an incredibly strong brand therefore it is essential that we include their product portfolio in our offering to help us become the quintessential fire safety supplier."

Customers have a wide choice of detectors, manual call points and sounders from which to select their fire alarm system components. No less than three types of heat detector (fixed temperature, rate of rise and high temperature) are available as well as four types of detector base which can be used with any of the fire detectors to give the fire alarm system greater flexibility. Detector base options include with/without diode and low profile models.

Furthermore, four types of call point can be used with the Gent Xenex system to allow manual fire detection and two types of sounder (each available in red or white) can be used to warn occupants of the fire emergency.

Discount Fire Supplies customers purchasing a Gent Xenex fire alarm system will receive expert

customer service, free delivery for orders over £100 and same day dispatch for orders placed before 2.30pm.

Customers buying any fire alarm system from discountfiresupplies.co.uk in December 2012 will also receive a [free gift](#) in the form of a set of batteries for their chosen fire alarm system and a Chekkit smoke spray to aid their fire alarm testing procedure.

About Discount Fire Supplies:

[Discount Fire Supplies](#) is an online retailer of fire alarms and safety accessories and aims to become the UK's premier fire alarm supplier. They have a large stock-holding and good relationships with all major manufacturers allowing them to be competitive on price and choice.
